PROFILE

Senior events and operations leader with five years building and scaling a global portfolio of high-visibility gatherings at the intersection of technology, policy, and human rights. Track record executing intimate summits, multi-day leadership retreats, and flagship conferences across 25 countries — partnering directly with executives and prominent external figures to deliver world-class experiences. Known for running complex, multi-stakeholder programs with a low footprint and a high standard.

EXPERIENCE

Strategy & Operations Director, Freedom Tech Program

Jan 2026 — Present

Human Rights Foundation · New York, NY / Remote

- Own end-to-end event strategy and execution for the Financial Freedom & AI for Individual Rights programs — a portfolio of 80+ events annually across 25+ countries.
- Serve as Event Director for the HRF AI Summit (Sausalito, CA), overseeing full production cycle: venue, vendor contracts, logistics, programming coordination, and on-site execution for a flagship multi-day summit.
- Lead a production team of five — Senior Event Producer, Events Operations Coordinator, Events Producer, Logistics Coordinator, and Programming Lead — across two active program tracks.
- Directed the annual Lofoten Retreat, a private off-the-record gathering of senior advisors and board-level stakeholders following the Oslo Freedom Forum.
- Partner directly with the Chief Strategy Officer and senior leadership on program positioning, stakeholder engagement, and executive event communications.
- Spearhead launch of HRF's AI program events vertical, building new event formats and processes to support an emerging program area from the ground up.

Events & Operations Lead

Jul 2024 — Dec 2025

Human Rights Foundation · New York, NY / Remote

- Managed travel logistics, vendor relationships, and on-site operations for the Global Bitcoin Summit — a by-invitation annual gathering of 125+ human rights activists, developers, and civil society leaders from 70+ countries.
- Owned full event lifecycle for the Oslo Freedom Forum side programming and the Lofoten Retreat, including venue sourcing, contract negotiation, transportation,

accommodations, and itinerary design.

- Traveled 150+ days per year to execute events across North America, Europe, Latin America, and Africa while managing an active event calendar remotely between trips.
- Built relationships with senior figures across the Bitcoin, human rights, and policy ecosystems — curating attendance and managing high-profile stakeholder communications on behalf of executive leadership.
- Relocated to New York independently to strengthen organizational relationships and support the central office team during a period of leadership transition.

Events & Operations Associate

Jul 2023 — Jul 2024

Human Rights Foundation · Remote

- Coordinated logistics and production across HRF's growing events portfolio, including international conferences, private dinners, and community gatherings in the Bitcoin and freedom tech ecosystem.
- Managed vendor sourcing, contract administration, budget tracking, and post-event reconciliation across multiple simultaneous programs.
- Supported executive communications, scheduling, and stakeholder outreach for the Chief Strategy Officer and senior program leads.
- Drove talent acquisition for the events team, recruiting and onboarding key production staff that scaled capacity ahead of program growth.

Events & Operations Intern

Jul 2022 — Jul 2023

Human Rights Foundation · Remote

- Supported event coordination and operations across HRF's global programming, developing foundational expertise in international event logistics, stakeholder management, and freedom tech community building.

Co-founder

March 2024 — Present

Bitcoin Students Network · Remote

- Co-founded the Bitcoin Student Network with a laser focused goal of spreading Bitcoin across college campuses globally. The BSN network is currently amassed of 400 universities worldwide.
- BSN continues to do events to support the university ecosystem.

Co-founder

May 2021 — March 2024

Generation Bitcoin · Remote

- Co-founded Generation Bitcoin, an organization started out of necessity to give a platform to the next generation of Bitcoiners. We hosted satellite events all around the world neighboring relevant industry events.
- Generation Bitcoin transitioned into the Bitcoin Student Network in March 2024.
